- Town of Warrenton
- Town of Purcellville
- Town of Lovettsville
- Town of Leesburg
- Town of Culpeper

Virginia Regional Transit

- We have the skills, strategic planning and desire to provide mobility options for Virginians
- We are efficient, flexible, and well governed
- In 2009-10 we provided rides to over 950,000 rural Virginians, keeping that many cars off the road, and our air that much cleaner.
- Our service makes the rural communities better places to live!
- For many entry level & other workers, Virginia Regional Transit is the only transportation option available to remain employed and be a productive worker in the Commonwealth.

Virginia Regional Transit

Short Term Growth Objectives

- Currently building a multi modal transit facility to serve the Shenandoah Valley In Augusta County
- Planning an expansion of the Purcellville multi modal facility to include a second floor, additional parking and safety & security features
- Planning for feeder circulator service to accommodate local passengers for Rail to Dulles
- Installing real time video conferencing to expedite and reduce travel for meetings
- Installing GPS based bus arrival notification system in Leesburg Virginia

Virginia Regional Transit

We make the public bus work for rural Virginia

One of the things Virginia does well!
